DETAILED ACTION

Double Patenting

1. Claims 26-29 have been rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 12 of U.S. Patent No. 6681604. Although the conflicting claims are not identical, they are not patentably distinct from each other because the scope of the claims in the application encompass the scope of claim 12 in the patent.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 26-33 have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 26 and 30 both recite "said upper and lower release members" in the second to last line of the claims. These limitation do not have antecedent basis.

Allowable Subject Matter

4. Claims 26 and 30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. Claims 27-29, 31-33 have been objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3677

6. The following is a statement of reasons for the indication of allowable subject matter: re claim 26, none of the prior art discloses two doors of a cabinet latched by a latching mechanism *attached to the support member*, which extends upwardly from the floor of the cabinet and has a release member protruding forwardly from the support member. Re claim 30, none of the prior art discloses two doors of a cabinet latched by a latching mechanism *fixedly mounted relative to the container* wherein a release member protrudes forwardly from the container.
